Out of the box and ready to go.

United Label proudly introduces the UL-245 desktop nursery tag and label printer packaged to run with or without a PC. We can design formats, tailored to your specifications, then send to the printer for future recall with the attached keyboard for \$865.

Or, use the Taggit Pro design software and run the UL-245 directly from a PC for only \$974. This full version software has database capabilities. Barcodes and Graphics are easy to produce.

Uses many of the same roll stock as our larger table top printers.

The UL-245 handles full size rolls of stock (3" core with 8" OD rolls) and a 984' ribbon. Print head is 4.09" wide with a 203 dpi resolution at speeds up to 5" per second. These standard features make the UL-245, pound for pound, the fastest, most versatile, user friendly desktop system for low volume requirements on the market today.

Standard printer features:

- Parallel, Serial & USB ports
- **984' ribbon length**
- Dual motor gear driven system
- **2 year limited warranty**

Options:

- Battery Pack – Lithium ion
- Ethernet LAN interface
- Memory cards: 1M to 4M bytes
