Print width may vary.

UPC Codes

The Uniform Code Council is the organization that monitors the UPC program. They assign and keep track of numbers that are issued. To apply for a number you must contact the UCC and request an application. They can be reached at:

7887 Washington Village Drive, Suite 300
Dayton, OH 45459
phone 937-435-3870
email: info@uc-council.org

The UCC will assign you a six-digit number. The first digit is your industry code. The next set of five digits is your vendor number*. This number is unique to your company. The next five digits are product numbers that are assigned by you. This number is set according to a program designed by your nursery. You may have different numbers for price, gallon size, variety, etc. The last digit is a check digit and is calculated by the prior eleven numbers assigned to the code.

We will gladly help you with any questions about UPC codes. We have been printing them for years and have assisted hundreds of customers with printing their own codes.

Please call 800-874-4465 with any questions regarding bar codes.

Note: The UCC has advised that depending on the needs of the applicant, they may assign a vendor number up to seven digits. This variation will affect the number of product digits you will be able to assign within your company.

Label Applicator TYI-1050

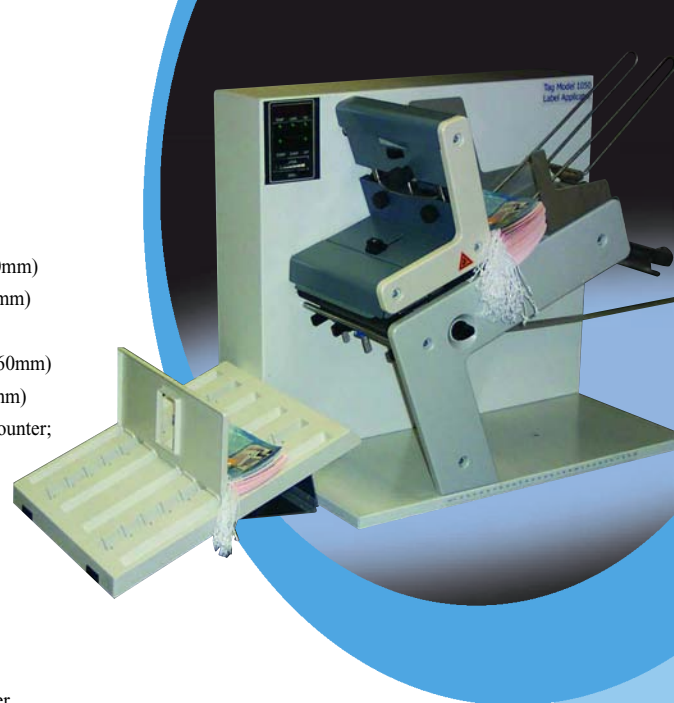

The Tag Model 1050 Label Applicator brings to the horticultural industry superior technology to automate application of pressure sensitive labels. By automating this timely step, you will be able to save time and money. With speeds up to 20,000 pieces per hour you will be able to increase productivity while decreasing your costs! And it's easy to operate!

The Tag Model 1050 gives you the ability to customize generic tags with needed information like pricing, barcodes, website location, etc., reducing the need for a large inventory of tags that may not be usable from year to year.

The 1050 is a proven winner in high volume situations. Training and service maximize uptime, ensuring your investment for years of reliable use!

Specifications

- Speed: Up to 20,000 pieces per hour (based on a 3" x 3" tag)
- Tag size: Length 3" to 31.5" (75mm to 800mm)
Width 2" to 15.5" (50mm to 394mm)
Thickness Up to .3125" (8mm)
- Label size: Length .79" to 6.25" (20mm to 160mm)
Width: .79" to 7" (20mm to 180mm)
- Counter: 5 Digit LCD Display; Lifetime Counter; Quantity Select Counter
- Feeder Type: Bottom Feed; Top Load; Auto shut-off when feeder or labels are empty
- Dimensions: 20.75" L x 13.5" W x 19" H
- Weight: 60-lbs
- Electrical Requirements: 110 volts, 60 Hz
- Options: Label Unwinder, Conveyor stacker

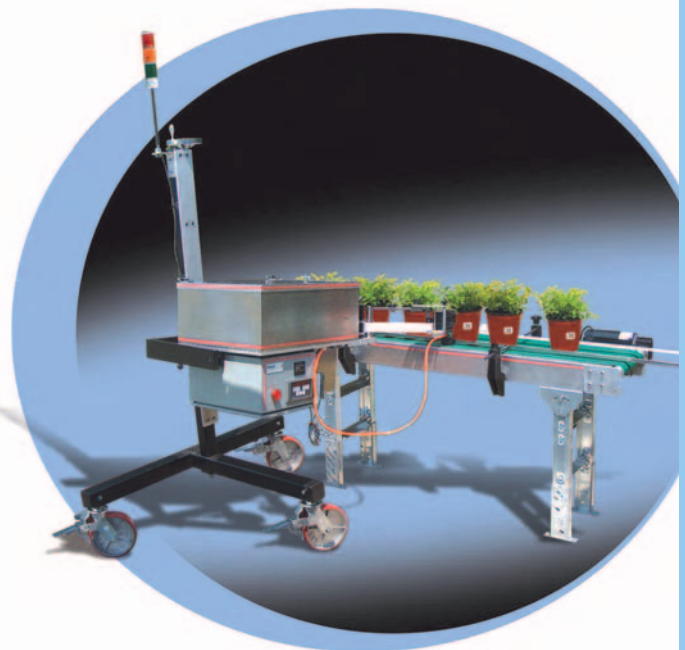

TYI-1050

Label Pot Applicator APP-5414

Preprinted labels up to 4 inches wide and 14 inches long are loaded onto the unwind spool, routed around the dancer arm through the drive assembly to the peeler plate and back to the rewind. A label gap sensor and controls ensure proper label registration. When the product sensor detects a product in position, a label is dispensed and applied to the product.

Specifications

- Label repeat accuracy - Better than $\pm 1/32$ inch
- Variable speed stepper motor drive
- Industrial controller
- Label roll 12 inch dia. maximum
- Label core 3 inch
- Maximum label height 4 inch
- Minimum label height 1/2 inch
- Maximum label width 14 inch
- Minimum label width 1/2 inch
- Maximum label dispense speed 850 in/min. (approx. 70 pots/min.)

- Photo Electric Gap Detection for paper label stocks
- Potentiometer speed control or optional operator control panel
- Product sensor Standard is retro reflective Mounting brackets included
- Electrical requirements: 110VAC, 60HZ
- Dimensions: 15" x 12" x 15"
- Warranty

- Mechanical/pneumatic parts one year
- Electrical components one year

Prices subject to change without notice.

2-year warranty

TXPSX Thermal Printer

The TXPSX models contain the features that make them a best-seller in the horticultural market. The ability to print tags up to 24 mil thick, 10 inches wide, with speeds up to 10 inches per second, make it the best nursery printer.

Standard features include Parallel Port, Serial Port, Ribbon Save Mode and a FETHR head (floating edge type head revolution).

The TXPSX printers are available with a 4" (203dpi) or 5" (300dpi) print head width.

Optional components include USB and Ethernet connectivity.

The rugged powder-coated industrial-strength steel case is designed for harsh environments, yet still attractive for office or store settings.

4" TXPSX4	\$3,195.00	10
5" TXPSX5	\$3,895.00	10

TECSX Thermal Printer

The TECSX Thermal Printer is available with a 4" (203 dpi) or 5" (300 dpi) print head. Standard features include Parallel Port, Serial Port, Ribbon Save Mode and Glass Coated FETHR head (floating edge type head revolution). This printer is ideal for printing pressure sensitive labels, signs and tags up to 5" wide. This TECSX printer can also print slip-on tags in end-to-end style, making it one of the most versatile printers for the money on the market.

Optional components include USB and Ethernet connectivity.

2-year warranty

5" TECSX5M	\$3,295.00	5

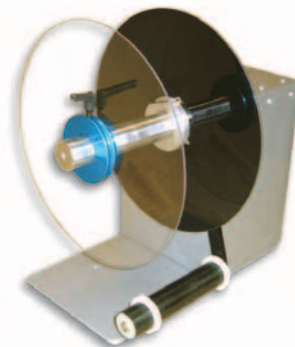

Printer Accessories

UM12 Unwind Stand

The UM12 is a free-standing unwind stand that accommodates larger rolls. Longer run time between rolls means increased productivity.

- Large roll capacity
- Large aluminum unwind spool
- Stainless steel dispense edge
- Self-contained
- Mounting holes pre-drilled
- Easy adjust paper guides
- Rubber feet
- No tool change over

RSS06 Label Rewinder

The RSS06 is built to provide rugged and lasting use. The RSS06 features "Speed Sync", a unique rewind control that automatically adjusts the rewind speed to match the printer speed, ensuring a smooth constant rewind.

- Wind inside or outside
- Large roll capacity
- Aluminum take-up spool
- Self-contained
- Mounting holes pre-drilled
- Stainless steel pull pin
- Rubber feet
- Inside / Outside / Off switch
- Outside guide disk standard

RA04 Label Rewinder

The RA04 is a smaller unit making it perfect for label rooms where demands aren't as heavy. The dancer arm activates the rewind spool to control the media for neat rewinding around a 3" core. Features similar to the RSS06.

Taggit Pro™ Labeling Design Software and Database

Whether you need to print bar codes, text, graphic images, color pictures or from a database, Taggit Pro™ has the features to help you design and print tags and labels with ease. This program will grow with your needs: from entry level dot matrix printing to high speed thermal printing.

- Batch printing
- Full-featured database construction capabilities
- Utilize TrueType fonts, bar codes, preset formats for all our labels and graphics capabilities

- Free phone support
- Includes plant database designed by our company with over 4500 records. This includes Annuals, Perennials, Trees and Broadleaf Shrubs, and is totally editable to add additional varieties or information.

Taggit Pro™ (specify USB or Parallel key)	\$395.00
--	----------

Taggit® Lite Labeling Software

This full-featured program has all of the utility of Taggit Pro except that it will not work with thermal transfer printers. It is an excellent program for dot matrix and laser printer users. Get rid of that old DOS software and move into the next century with Taggit Lite!

(Works only with Windows 98 or earlier versions. Call Tech Support if you need assistance determining your current operating system.)

LabelView Gold

This is another wonderful product from the designers of Taggit Pro. This software package is for the ultimate in label design and integration. Label View Gold has the same features as Taggit Pro plus:

- OLE Automation
- Command Files
- Comm Watch
- Data Watch
- Visual Basic Builder
- Label Select

LabelView Network Version

If it is necessary to print from multiple stations or locations you will need to install Label View Network Version. Please call us today to discuss your needs and we can quote the appropriate software solution.

Total Care Service Program

The Total Care Service Program (for TXPSX and TECSX printers) is designed to protect your investment of a thermal transfer printer. These printers have historically proven to be extremely dependable. However, computer hardware can mysteriously break down. The Total Care Service Program will provide you prompt service to get your company printing tags and labels again!

Here is how it works:

- If your printer stops working call our technical support staff (800) 858-7425. If they are unable to solve the printer problem, they will arrange to ship

a replacement printer (excluding print head) via next day air service. Arrangements submitted before 3:00 PM EST can be shipped out same day.

- Remove the print head from your current printer and install it into the replacement printer. You should be running tags within minutes of receiving the replacement printer.

- We will supply you with a return authorization number and return label for your original printer. All printers must be shipped in their original boxes. We will pay all shipping costs and you can arrange for pick-up at your convenience. The

replacement printer becomes your printer. This trade out can be performed up to four times during the one-year term.

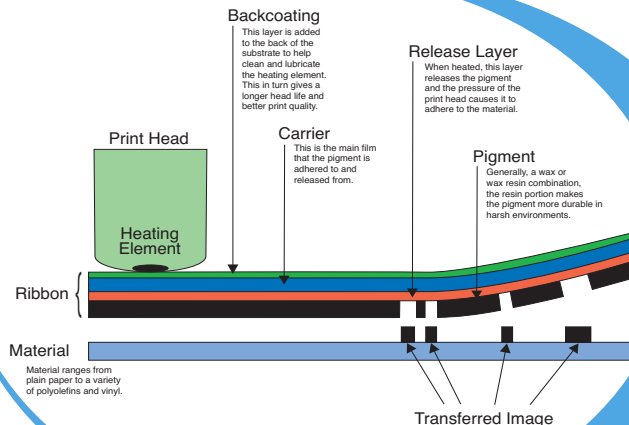

The Total Care Service Program is in addition to the two year warranty on parts and 30 day warranty on labor offered on all new TXPSX and TECSX (monochrome) printers.

If you have an existing printer and wish to purchase the Total Care Service Program, there is a waiting period of thirty days before the program may be used from the time of ordering. Please call for pricing. Add this low cost insurance today.

Printed with UPC Barcodes	\$1.60/thousand

Standard Label Dispensing Directions

When placing your order, please state the desired direction for your labels.

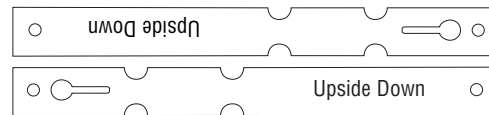

Imprint Information

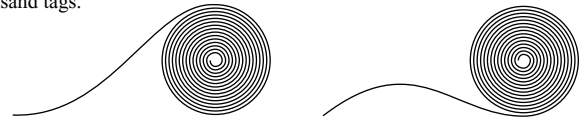

All roll tags are available blank, printed one side, or printed two sides. Our standard imprint (logo, address, etc.) is left to right (keyhole/point on right). Tags are rolled into your printer left to right (keyhole/point on right).

Note: If you require your label to read "like a book" please request imprint to be printed "upside down" at no extra charge.

If we must re-roll any tag from our standard, there will be a charge of \$1.00 per thousand tags.

Thermal Signs

Pressure Sensitive Material Rigid Material

Features:

Pressure sensitive material possesses an aggressive permanent adhesive that resists water, chemicals and sunlight.

Sign stock is ready for immediate insertion into galvanized markers and black plastic sign holders (see page 27).

May be printed with decorative borders and your company name or logo.

May be floodcoated for more color options.

Available in rolls of 100 or 500.

Pre-print minimum orders

1,000 per variety.
Print charges: call for quote.

See page 6 (Flexo printing) for Pre-print setup charges.

DIG HOLE: Carefully remove the container from the root ball. Dig a hole 6-12" wider and deeper than the root ball.
PLANT: Plant deep enough that the top of the root ball is level with the existing soil. Backfill with topsoil and tamp lightly to eliminate air pockets. Soak thoroughly with water. Top with 1-2" of mulch around the plant.
CARE: Water thoroughly twice a week, or as needed during the growing season until established. Spray for insects and diseases as needed. Fertilize 1-3 times during the growing season.

All Dot Matrix Products:

Pre-print minimum orders

500 per variety
\$1.00 set-up fee for varieties under 1,000.

Print orders that consist of 5 or more varieties must be faxed, mailed or emailed. Please order by catalog number only; please specify color(s). See page 6 (Hot Stamp) for Pre-print setup charges.

Print Charges:

Print one side less than 1" \$7.50/M
 1" and greater \$9.75/M

Note:

All tags on this page are compatible with the Lexmark 2380 and 2480.

Dot Matrix Ribbon

Regular office ribbons will not work on our plastic labels. We suggest ultraviolet light stabilized inks for printing on plastic. We do the most thorough testing possible. We feel that the ribbon we offer is one of the best available, but we cannot guarantee print life in individual situations.

For printers other than the IBM 2380, ribbons with ultraviolet light stabilized inks may be purchased from O.S. Eaton Corp. Call them at 1-800-221-3980.

Ribbon Shelf life is 6 months. When not in use, store in zip-lock bag in refrigerator.

T2380 RIB	Replacement Ribbon	\$15.95

Injection Molded Stakes

Injection molded stakes are made of heavy-duty styrene from .055 to .070 thicknesses. These stakes are sturdy enough to be inserted into most mediums. Surfaces accept writing with UV stabi-

lized marking pens. Pressure sensitive labels are available for most injection molded stakes. Please see page 14 for appropriate labels.

Price per hundred. Please order in package quantities.

P7 Auto Ringer

The application of the self-feeding principle to the familiar hog ring plier meets a need that all users of this fastening method have been waiting for. The auto ringer cuts operating time and costs, and increases savings and profits. A very useful tool on every job within the range of this staple size. The SR8 rings for the P7 are galvanized. 2,500 rings per box, 10 boxes per case.

Turn-O-Matic

It is not always possible to serve all your customers as quickly as you would like. A Turn-O-Matic system allows your customer to wait in relaxed comfort without having to worry about missing their turn. You can give your customer more personalized service with a Turn-O-Matic system and provide a hassle free environment for your employees too.

- Most economical and widely used customer service system in the world
- Provides fair, organized, efficient customer service
- Stimulates impulse purchases
- Enhances the customers perception of quality
- Assures the customers their turn for service without needing to defend their place in line
- Increases employee productivity by removing customer serving-order issues and stress

Hand-Held Labeling Systems

Checkpoint offers a variety of one, two and three line Hand-held Labeling Systems, ideal for low and high volume users. They allow you to mark thousands of items quickly and reliably. Used for most merchandising and coding applications, they are available in a variety of choices that will suit every customer need.

The applications are endless. Complete A-Z character capability is available, giving you the ability to print your own customized messages. Additional stock print bands allow for tool customization to meet special requirements. The lock-in print band feature provides greater accuracy when selecting the character's position. With each tool, you can quickly load and exchange ink rollers and labels. Engineered for durability and impact resistance, these labelers provide years of dependable service.

- Great for retail, distribution and quality assurance applications
- Communicates endless combinations of pricing and promotional information on a pressure sensitive label
- Assists in inventory control
- Enhances comparative shopping
- Custom pre-printed labels available in vinyl and paper
- Labelers available with UV ink rollers

ADDITIONAL CHECKPOINT PRODUCTS

Additional Thermal Transfer Printers

Rounding out Checkpoint's printer family are three desktop to light industrial thermal transfer printers, the MI4, MR4 and MN4 (shown left to right).

The MI4 printer breaks the mold of inexpensive printers. This metal constructed machine prints 4 inch, 203 dpi resolution at speeds up to 8 inches per second. The 4.65 media width allows many of the horticultural labels to easily pass through the machine. It boasts a powerful 32-bit processor and an amazing 8MB of addressable RAM, allowing quick communication from the computer to the printer. Due to the traditional print head technology, it is limited to pressure sensitive labels.

The MR4 printer is the printer of choice when workspace is limited. The beauty of the MR4 lies in its design; combining sophisticated engineering characteristics, rugged construction and modularity. This printer accommodates many variables in your printing application or labeling requirements, lending itself to be one of the best values in the today's mid-range printer market.

The MN4 printer is an inexpensive entry-level printer designed for low to medium volume labeling applications. This is a small, compact printer designed for a variety of label printing applications. Its small footprint, sleek enclosure and enhanced electronics result in an outstanding entry-level or secondary printer.
