Legend

Please locate your printer model. The corresponding icon will indicate which product can be used in your printer.

Prints up to 4" or 5" on a 5" web (material width).
TEC472M • TEC572M • TECSX4M • TECSX5M

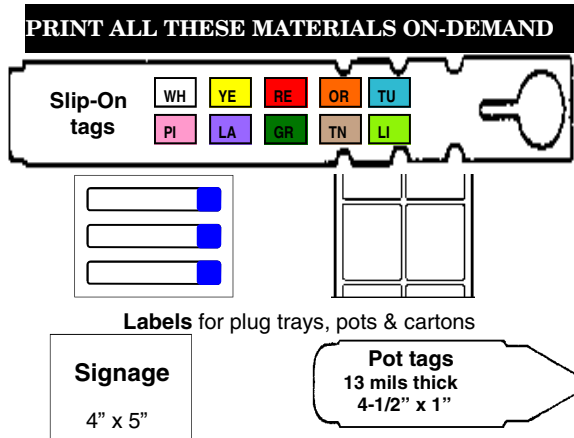

Prints up to 4" or 5" on a 9" web (material width).
TXP3-4 • TXP3-5 • TXPSX5 • TXPSX4

Fits most SATO and Zebra printers. Print width may vary.

On-Demand Thermal Printer for Garden Centers, Greenhouses & Nurseries

offered exclusively by: United Label & Sales Corp.

For a complete list of materials or more info visit
www.UnitedLabel.com

Standard printer features:

- Parallel, Serial & USB ports
- External media holder + cable
- 4.09" maximum printing width
- Minimum size label: .75" W x .4" H
- **984' ribbon length**
- **2 year limited warranty on printer**

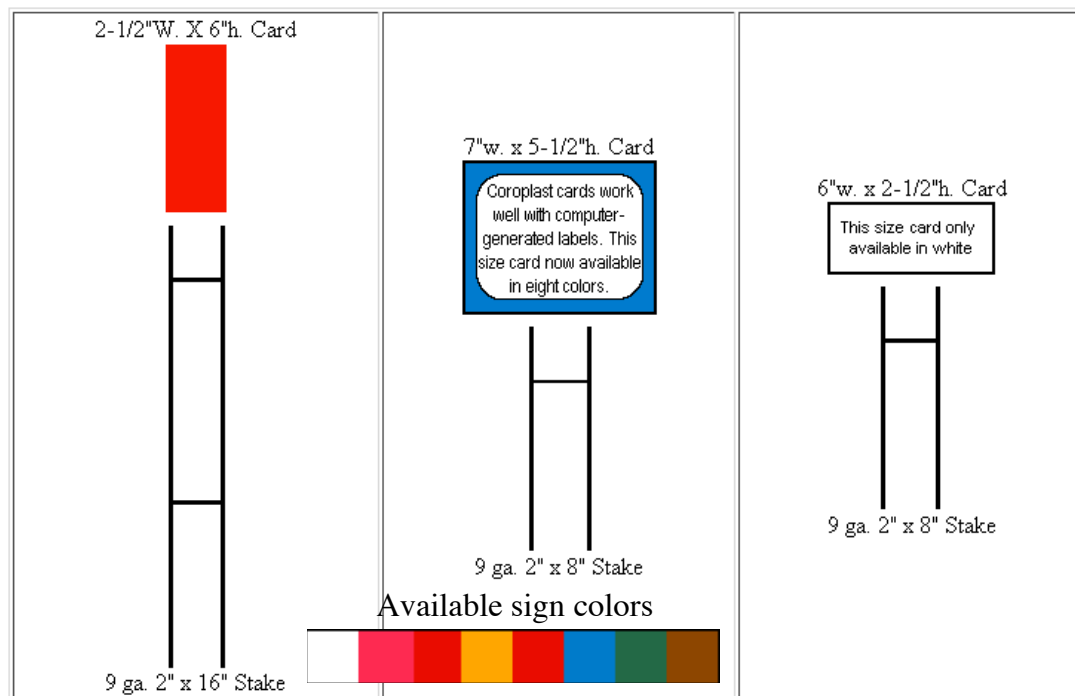

Out of the box and ready to go. The UL-247 desktop nursery tag and label printer is packaged to run with or without a computer. We can design formats, tailored to your specs, which are then downloaded to the printer for future recall with the attached keyboard for only \$865.

Or, use the label design software and run the UL-247 directly from a computer for just \$974. This full version software includes resident plant databases and is able to link directly to Excel spreadsheets for efficient data management. Bar-codes and Graphics are easy to produce.

Uses many of the same roll stock as our larger table top printers. Runs full size rolls of stock (3" core with 8" OD)

PARKER DAVIS SIGNS

- Signs are of 4mm corrugated polypropylene material and will hold up for several years outdoors. Multiple colors and sizes to choose.
- Marker stakes are fabricated of durable 9 gauge galvanized steel. Stakes vary in length and will last several seasons.
- We have many thermal & laser adhesive label sizes to compliment these sign sizes.

Partial list of thermal labels & tags available to you.

*If you don't find what you're looking for, please ask. There's a good chance we have it. These work in many thermal printers.

Plug Labels

Sizes In Stock:

4" x 5/8"

2 1/2" x 7/16"

Available in blank, full tint
or color bands.

Removable adhesive labels

Water and sunlight resistant for you, removable for the customer.
*ideal for decorative pots, foil pot sleeves, giftware, etc...

Pot labels for all printer models

*Too many to list. If you
don't find your size, please ask.

Paddle and Barbell labels

*great for marking dried flowers, giftware, etc...

RSS06 LABEL REWINDER \$795.00

The RSS06 is built to provide rugged and lasting use. The RSS06 features "Speed Sync", a unique rewind control that automatically adjusts the rewind speed to match the printer speed, ensuring a smooth constant rewind.

- Wind inside or outside
- Large roll capacity
- Aluminum take-up spool
- Self-contained
- Mounting holes pre-drilled
- Stainless steel pull pin
- Rubber feet
- Inside / Outside / Off switch
- Outside guide disk standard

RSS86-110-S2 SLITTER REWINDER COMBO \$1,360.00

- Slits and rewinds 2 or 3 labels across
- Easy to load
- Compact size
- Heavy-duty construction
- Easy to replace blades
- Speed Sync rewind control
- Two divider plates
- Outside guide

RA04 LABEL REWINDER \$495.00

The RA04 is a smaller unit making it perfect for label rooms where demands aren't as heavy. The dancer arm activates the rewind spool to control the media for neat rewinding around a 3" core. Features similar to the RSS06.

LABEL APPLICATOR TYI-1050

The Tag Model 1050 Label Applicator brings to the horticultural industry superior technology to automate application of pressure sensitive labels. By automating this timely step, you will be able to save time and money. With speeds up to 20,000 pieces per hour you will be able to increase productivity while decreasing your costs! And it's easy to operate! The Tag Model 1050 gives you the ability to customize generic tags with needed information like pricing, barcodes, website location, etc., reducing the need for a large inventory of tags that may not be usable from year to year. The 1050 is a proven winner in high volume situations. Training and service maximize uptime, ensuring your investment for years of reliable use!

NURSERY CONTAINER LABEL APPLICATOR

Preprinted labels up to 4 inches wide and 14 inches long are loaded onto the unwind spool, routed around the dancer arm through the drive assembly to the peeler plate and back to the rewind. A label gap sensor and controls ensure proper label registration. When the product sensor detects a product in position a label is dispensed and applied to the product.

Introducing.... Simply SATO

Economical tags that offer the combination of variably imprinted information with preprinted graphics and custom branding.

On-Demand Printing Provides Flexibility

- Adjust item pricing to impact sales
- Add store branding messages
- Include product descriptions to match your stock

Secure Attachment

Clip tag to elastic band, plant stem or bamboo stake or hang from string for quick and simple display

Simple Price Removal After Purchase

Perforation allows customer to remove the price after purchase; Perfect for gifts!

Eye-Catching Designs Help Move Inventory

Custom branding and logos can be added

Care Instructions Ensure Long Plant Life

Printed on tag back, care instructions will help your customers take proper care of floral items

Renewable Resource

All-natural paper stock, eco-friendly inks and optional bamboo stakes for a "green" product

Custom Tag Designs

SATO designers can create custom tag layouts and styles, using a supplied logo, or creating a design to perfectly compliment your arrangements

Features:

Simply SATO tags offer pre-printed holiday and gift imagery designed to accompany bouquets, plants or floral gifts and are available in two options. One version comes in roll form for thermal variable imprinting at the store or nursery to add UPC bar codes, descriptions, pricing or store branding messages. The other form of Simply SATO tags are bundled individually in stacks for immediate use.

Thermal Hang Tags are 2" x 4"

Care Instructions for potted plants, bouquets, and special plants.

Simply SATO

Hang Tags, and Hanging Basket Tags.

SATO has developed several stock designs and can produce custom pre-printed logos or layouts. The Simply SATO tags are designed with both the retailer and the consumer user in mind and are bright, eye-catching, contain a wealth of information and are simple to use. Retail customers will be attracted to products with the Simply SATO tags attached and purchase products for everyday or special occasions where they may not have otherwise. In addition, the tags offer retailers an economical means to enhance the image of their product and increase sales.

We also create custom designs.

Hang Tags are 2.5" x 4.25"

Basket Tags
2" x 4.75"

Bamboo Hang Tag Stakes

Bamboo Stakes display your tags, and are a natural choice for the environment.

	BH13L
sold in box quantity increments	1000/box
box weights	8 lb.

Care Instructions for potted plants, bouquets, and special plants.

TXPSX Thermal Printer

The TXPSX models contain the features that make them the best-seller in the horticultural market. The rugged powder-coated industrial strength steel case is designed for harsh environments, yet still attractive for office or store settings. These printers easily handle material thickness up to 24 mil at speeds up to 10" per second. They are available with 4" (203 dpi) or 5" (300 dpi) print heads with 10" tag width allowance. The TXPSX models come standard with Parallel Port, Serial Port, Ribbon Save Mode and a FETHER head (floating edge type head revolution). Ethernet connectivity is available as option.

4" TXPSX4	60 lb. / 3 lb.	⑤
5" TXPSX5	60 lb. / 3 lb.	⑤
TEC9004-R (Ethernet Port Option)		

TECSX Thermal Printer

The TECSX models contain the same features as the TXPSX models however they handle up to 5" tag width. This unit is ideal for tags, labels and signs up to 5" wide. Utilizing the End-To-End Slip-on tags, various pot tags, pressure sensitive and signs makes this the most versatile printer for the money on the market. The TECSX models come standard with Parallel Port, Serial Port, Ribbon Save Mode and a FETHER head (floating edge type head revolution). USB and Ethernet connectivity are available as options.

Weights	57 lb / 3 lb.	57 lb / 3 lb.	-

CG408 Thermal Printer

The CG408 desktop printer is a great complement to our SX model line of printers. The CG408 can print up to 4" wide at 203 dpi, up to 4 ips. This printer is designed primarily for thinner gauge materials, such as pressure sensitive adhesive labels, 10 mil end to end slip on tags, and 13 mil pot stakes. The CG408 offers a lower cost addition to help reduce changeover time for customers using different types of media.

Choosing the right software package is essential to meeting the demands of your on-demand label printing program. We'll help you analyze your needs, assist with installation, make modifications to your database and ensure the settings are correct for your label printing process. Ask us about software and updates. CD available upon request.

Taggit Pro™ Labeling Design Software and Database

Whether you need to print bar codes, text, graphic images, color pictures or from a database, Taggit Pro™ has the features to help you design and print tags and labels with ease. • Microsoft Vista ready • Batch printing • Full-featured database construction capabilities • Utilize TrueType fonts, bar codes, preset formats for all our labels and graphics capabilities • Free phone support • Includes plant database designed by our company with over 4500 records. This includes Annuals, Perennials, Trees and Broadleaf Shrubs, and is totally editable to add additional varieties or information.

LabelView Gold

This is another wonderful product from the designers of Taggit Pro. This software package is for the ultimate in label design and integration. Label View Gold has the same features as Taggit Pro plus: • OLE Automation • Command Files • Comm Watch • Data Watch • Visual Builder • Label Select.

LabelView Network Version

If it is necessary to print multiple stations or locations you will need to install Label View Network Version. Please call us today to discuss your needs and we can quote the appropriate software solution. **For Hardware and Software questions, please contact your Authorized Reseller.**

Thermal Slip-On® End to End Tags

Low Density Polyethylene (TX) 10 mil

Features:

Our thermal slip-on tags are a great way of identifying your product. Once locked, it will stay on the plant material until removed. Thermal print adheres to the surface for years, and will not fade away. The dry printing process means tags are ready to use as they come off the printer. Our thermal slip-on tags can be pre-printed flexo graphically during the manufacturing process or with the thermal transfer printing method.

Minimum order: Roll quantity - 500 per variety

Setup and printing charges may apply --

See price sheet for more information or call your local reseller for quote.

Thermal Signs Rigid Material (NC) 10 mil

Features:

Sign stock is ready for immediate insertion into the sign holders found on page 22.

Floratherm (FT) 3.2 mil

Features:

The floratherm material is designed with an aggressive adhesive and top coated face stock that resists water and sunlight while providing a superior thermal transfer print surface. The labels can be applied to smooth damp containers, flats and trays with excellent results. Signs may be preprinted with decorative borders and your company name or logo. They can also be flood-coated to create additional color options.

Setup and printing charges may apply -- See price sheet for more information or call your local reseller for quote.

Clear and Block-out Labels

All of the below label sizes are also available in a Clear Synthetic (Plastic) or with Block-out Adhesive.

Clear labels are commonly used to place variable data on custom printed picture tags in an attractive manner. Block-out adhesive labels are designed to cover up whatever is behind the label. If you need to re-price or change a bar code, the Block-out Adhesive label will not allow the original information to show through.

If you are interested in either application, please contact your Authorized Master Reseller for a quote.

Valueline Laser Slip-On® Tags

Laser Material (VL) 10 mil

Features:

The Valueline Laser printable product is a 10 mil material that is top-coated on both sides to provide superior imaging and longevity outdoors. Our Valueline is viable for all of your monochrome laser printing applications, but is also a solution to most of your color printing applications as well. This economically priced laser printable material can cover almost all of your laser printing needs. Our laser slip-on tags may be pre-printed with information such as company name, website and logo for maximizing company visibility.

Minimum: 1,000 tags per artwork change

Setup and printing charges may apply -- See price sheet for more information or call your local reseller for quote.

Note: Due to the number of laser printers on the market, customers are requested to order a free sample packet to thoroughly test the printer they are considering using.

Superior Advantage Laser Printable Hang Tags

Laser Material (CL) 7 mil

Features:

The Superior Advantage Laser printable product is a 7 mil material that is top-coated on both sides to provide superior imaging and longevity outdoors. Our Superior Advantage gives excellent resolution in color printing applications. It will provide a solution to all of your color laser printing needs. Our laser printable hang tags are available with preprinted care instruction or blank. They also can be custom printed flexographically up to three colors.

Setup and printing charges may apply -- See price sheet for more information or call your local reseller for quote.

Note: Due to the number of laser printers on the market, customers are requested to order a free sample packet to thoroughly test the printer they are considering using.

Ringer and Rings

The ringer has revolutionized the auto-ringer market with its "pneumatic-like" action and ease of use. From balling and burlapping, to tagging of pots, this tool puts affordability with quality. The "D" shaped ring creates a triangle "△" when attached.

G7 Auto Ringer and Rings

The application of the self-feeding principle to the familiar hog ring plier meets a need that all users of this fastening method have been waiting for. The auto ringer cuts operating time and costs, and increases savings and profits. A very useful tool on every job within the range of this staple size. The SR8 rings for the G7 are galvanized. The "C" shaped ring creates a circle "○" when attached.

Point of Purchase (POP) Signs

Point of Purchase Signs are an important marketing tool. These are placed in "high traffic" areas, and are an excellent item to direct consumers to products and answer common questions about those products. Using POP signage along with Posters, Hangtags, Signs, Pot Stakes, Handles, and Labels creates a "Common Theme" for your product.

Point of Purchase Signs are produced in a variety of color/colors, sizes, and are designed to compliment and promote your product.

Typical sizes are, but not limited to:
5" x 7", 7" x 11", 11" x 7"

Custom Cards

Custom Cards are produced on plastic that will hold-up to environmental conditions, such as rain, sun, hot and cold. Custom Cards are simply that "Custom". These can be used to announce a sale, promotion or simply list a specific products care.

These can be coordinated with Posters, Hangtags, Signs, Pot Stakes, POP, Handles, and Labels.

Typical sizes are, but not limited to:
3" x 4", 4" x 5", 5" x 7"

Banners

Banners are an excellent choice for special product recognition on a larger scale. Banners are very visible, and are a great way to attract the consumer to the area where your product is located.

Used with eye-catching graphics and coordinated with Posters, POP, Hangtags, Signs, Cards, Pot Stakes, Handles, and Labels, Banners make a strong marketing presence.

Call for quote.

Posters and Wall Charts

Great for large area advertising, special product promotions, instructions, or as a reference point announcing special features of your product or other marketing pieces.

These can be coordinated with Hangtags, POP, Signs, Cards, Pot Stakes, Handles, and Labels.

Can be produced in a variety of color/colors, sizes, and are designed to compliment and promote your product.

Call for Quote.

Custom Handles

Designed specifically for a locking style plant flat. Not only is the handle a great way to carry a plant flat, but it's a perfect way to add information about the product, and gives a perfect place for a UPC.

D43 Handle

1" x 20"

Tree Wraps

Generic and Custom printed tree wraps 10" x 12" and 10" x 18". With up to three color printing featuring your logo, care information, planting instructions and company logo. Just wrap and staple, no messy glue strips to contend with.

Printing Material

Bio-Friendly Printing Material Options...

The Horticulture Division of SATO Labeling Solutions America, Inc. is committed to finding solutions, solving challenges and helping our customers increase their sales through custom marketing programs. The most effective programs are tailored for your specific product; combining containers, custom designed tags, and point-of-purchase (POP) materials to achieve merchandising strategies aimed at generating turns. We work with our graphic design team to provide fresh ideas and consumer trends. We're committed to developing the most effective solution for you, and differentiation is a key to distinguishing your program from the masses. Let SATO help you with your next environmentally smart horticultural printing project.

Non-Biodegradable Plastic in the Marketplace...

Many of the plastics used today in the Horticultural marketplace are made up of non-recycled and recycled plastics. However, many of these plastics are being discarded and not being recycled. A large portion of these plastics will not break down over a long period of time, which doesn't help reduce the waste footprint in our environment. As a result, we are committed to providing our customers with material options, including ones that promote environmental stability. This Bio-friendly plastic material provides a perfect palette for offset printing that is comparable to traditional plastics. This material is durable and an excellent choice for your Horticultural applications. All together, recycling is a great start for our market place, but a large portion of materials will still enter the landfill. The best alternative is to have a bio-friendly plastic that's not only durable, but will breakdown naturally.

Biodegradable Plastic Q and A...

What causes the material to breakdown? Is this a biological or chemical reaction that takes place?

You might consider it a bio-chemical reaction, as bacteria utilize enzymes effective for the breaking of long polymer chains in the plastic product. Since the bio-plastic is hospitable as an environment, bacteria will collect in colonies there, and breakdown will initialize.

How long does it take for the plastic tag to completely disappear?

If discarded in a bio-rich environment (in contact with the material, such as in a landfill), breakdown on average is 1-5 years. Material on warehouse shelves, or in the retail environment, are not considered as candidates for this breakdown process.

"Tags end up all over my nursery grounds. I know there are tags in the soil that are many years old. If I switch to a biodegradable material can anything harmful end up in the soil that could affect the plants in the ground? This is for growers who place trees and large shrubs directly in the ground."
Unlike oxo-degradable technology, this does not use any heavy metals. The end products are to be carbon dioxide, water, and any earths/filler used to color the product (which came from the earth in the first place - clay, calcium carbonate, TiO₂, talc, etc).

"I place pot tags in the container when the cuttings are rooted. The plant grows for 4-6 months in my greenhouse. Will the tag breakdown while in the soil during the growing process? Will any chemicals or biological items leach into the container that could affect the plant?"

The portion of the plastic buried in the soil will be given the greatest potential contact with bio/bacteria. Thus, very small amounts of biodegradation are possible, but the structure of the tag should not be compromised. (especially in the shorter 4-6 month frame).

"I sometimes inventory tags for up to 3 years. Do I need to take any special precautions with the tags during that time frame?"

Sensible care should be adequate for the tags, i.e. relatively dry warehouse shelves are fine. Wrapping or bagging is certainly a good precaution. If conditions are like a greenhouse environment, where mold and mildew are prevalent, then you'll want to watch your material more carefully. However, unlike oxo-degradables, these items aren't going to start breaking down merely on a time-based model.
