On-Demand Thermal Printer for Garden Centers, Greenhouses & Nurseries

offered exclusively by: **United Label & Sales Corp.**

PRINT ALL THESE MATERIALS ON-DEMAND

Labels for plug trays, pots & cartons

Signage

4" x 5"

Pot tags

13 mils thick
4-1/2" x 1"

For a complete list of materials or more info visit
www.UnitedLabel.com

Standard printer features:

- Parallel, Serial & USB ports
- External media holder + cable
- 4.09" maximum printing width
- Minimum size label: .75" W x .4" H
- **984' ribbon length**
- **2 year limited warranty on printer**

\$974 PC Driven System

includes label design software

A thermal transfer
alternative to dot
matrix printing.

UL-247

\$865 Stand-Alone System

Out of the box and ready to go. The UL-247 desktop nursery tag and label printer is packaged to run with or without a computer. We can design formats, tailored to your specs, which are then downloaded to the printer for future recall with the attached keyboard for only \$865.

Or, use the label design software and run the UL-247 directly from a computer for just \$974. This full version software includes resident plant databases and is able to link directly to Excel spreadsheets for efficient data management. Bar-codes and Graphics are easy to produce.

Uses many of the same roll stock as our larger table top printers. Runs full size rolls of stock (3" core with 8" OD)

PARKER DAVIS SIGNS

2-1/2"W. X 6"h. Card

9 ga. 2" x 16" Stake

7"w. x 5-1/2"h. Card

Coroplast cards work well with computer-generated labels. This size card now available in eight colors.

9 ga. 2" x 8" Stake

6"w. x 2-1/2"h. Card

This size card only available in white

9 ga. 2" x 8" Stake

Available sign colors

- Signs are of 4mm corrugated polypropylene material and will hold up for several years outdoors. Multiple colors and sizes to choose.
- Marker stakes are fabricated of durable 9 gauge galvanized steel. Stakes vary in length and will last several seasons.
- We have many thermal & laser adhesive label sizes to compliment these sign sizes.

RSS06 LABEL REWINDER \$795.00

The RSS06 is built to provide rugged and lasting use. The RSS06 features "Speed Sync", a unique rewind control that automatically adjusts the rewind speed to match the printer speed, ensuring a smooth constant rewind.

- Wind inside or outside
- Large roll capacity
- Aluminum take-up spool
- Self-contained
- Mounting holes pre-drilled
- Stainless steel pull pin
- Rubber foot
- Inside / Outside / Off switch
- Outside guide disk standard

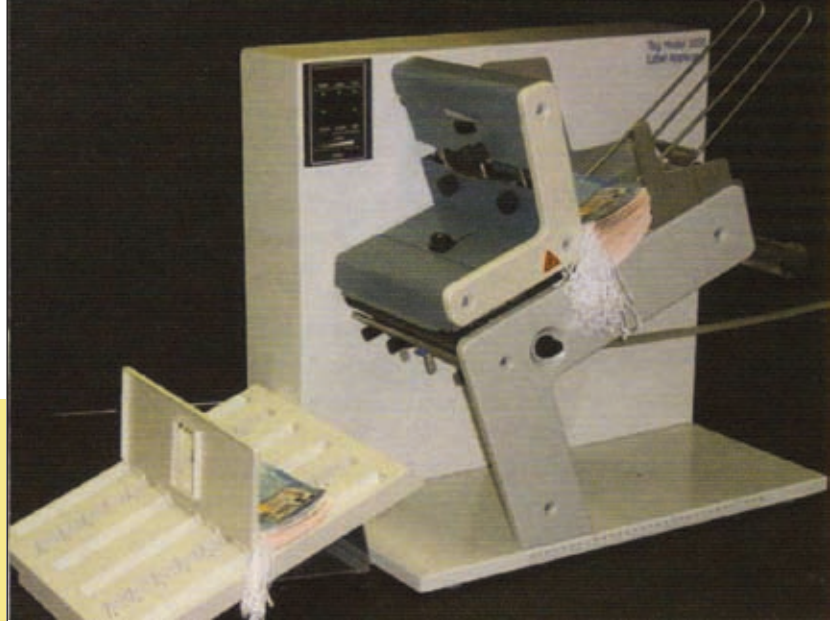

RSS86-110-S2 SLITTER REWINDER COMBO \$1,360.00

- Slits and rewinds 2 or 3 labels across
- Easy to load
- Compact size
- Heavy-duty construction
- Easy to replace blades
- Speed Sync rewind control
- Two divider plates
- Outside guide

RA04 LABEL REWINDER \$495.00

The RA04 is a smaller unit making it perfect for label rooms where demands aren't as heavy. The dancer arm activates the rewind spool to control the media for neat rewinding around a 3" core. Features similar to the RSS06.

LABEL APPLICATOR TYI-1050

The Tag Model 1050 Label Applicator brings to the horticultural industry superior technology to automate application of pressure sensitive labels. By automating this timely step, you will be able to save time and money. With speeds up to 20,000 pieces per hour you will be able to increase productivity while decreasing your costs! And it's easy to operate! The Tag Model 1050 gives you the ability to customize generic tags with needed information like pricing, barcodes, website location, etc., reducing the need for a large inventory of tags that may not be usable from year to year. The 1050 is a proven winner in high volume situations. Training and service maximize uptime, ensuring your investment for years of reliable use!

NURSERY CONTAINER LABEL APPLICATOR

Preprinted labels up to 4 inches wide and 14 inches long are loaded onto the unwind spool, routed around the dancer arm through the drive assembly to the peeler plate and back to the rewind. A label gap sensor and controls ensure proper label registration. When the product sensor detects a product in position a label is dispensed and applied to the product.

Simply SATO

Economical tags that offer the combination of variably imprinted information with preprinted graphics and custom branding.

On demand Printing Provides Flexibility

- Adjust item pricing to impact sales
- Add store branding messages
- Include product descriptions to match your stock

Secure Attachment

Clip tag to elastic band, plant stem, or bamboo stake or hang from string for quick and simple display.

Simple Price Removal After Purchase

Perforation allows customer to remove the price after purchase; Perfect for gifts!

Eye-catching Designs Help Move Inventory

Custom branding and logos can be added.

Care Instructions Ensure Long Plant Life

Care instructions printed on the back of tag, will help your customers take proper care of floral items.

Renewable Resource

All natural paper stock, eco-friendly inks, and optional bamboo stakes for a "green" product.

Care Instructions for potted plants, bouquets, and special plants.

Simply SATO tags offer preprinted holiday and gift imagery designed to accompany bouquets, plants, or floral gifts and are available in two options. One version comes in roll form for thermal variable imprinting at the store or nursery to add UPC bar codes, descriptions, pricing, or store branding messages. The other form of Simply SATO tags are bundled individually in stacks for immediate use.

SATO has developed several stock designs and can produce custom preprinted logos or layouts. The Simply SATO tags are designed with both the retailer and the consumer user in mind and are bright, eye-catching, contain a wealth of information, and are simple to use. Retail customers will be attracted to products with the Simply SATO tags attached and purchase products for everyday or special occasions where they may not have otherwise. In addition, the tags offer retailers an economical means to enhance the image of their product and increase sales.

Print color other than Black (Blue, Green, White, Metallic White, Red)	\$4.00/M

Hot Stamping (H)

Hot stamping is a dry printing method in which a heated die and foil are used to apply graphics to a surface.

Print Charges

Print less than 1"	1-Side	\$8.75/M	2-Side	\$16.75/M
Print 1" or greater		\$12.25/M		\$22.50/M

Setup Charges

Straight Line Copy Engraving	\$7.00/ea.
Logo / Artwork Engraving	\$35.00/ea.
Artwork Charge	\$60.00/hr.
UPC Code	\$1.60/M
Minimum varieties of 1000, charge if under	\$1.00/M
Consecutive Numbering	\$9.00/M
Imprint Color other than Black	\$4.00/M

Flexographic Printing (F)

Often abbreviated to flexo, this is a method of printing most commonly used for packaging. A flexo print is achieved by creating a mirrored master of the required image as a 3D relief in a rubber or polymer material.

A measured amount of ink is deposited upon the surface of the printing plate (or printing cylinder) using an anilox roll. The print surface then rotates, contacting the print material which transfers the ink.

Need a QR code or a MS Tag? We can help.

QR Code is a matrix barcode (or two-dimensional code), readable by QR scanners, mobile phones with a camera, and smartphones.

The code consists of black modules arranged in a square pattern on white background. The information encoded can be text, URL or other data.

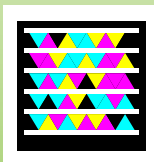

Codes can be customized to link to any page on your website.

Goes to: <http://www.satolabeling.com/hort>

MS Tag or Microsoft Tag is an implementation of HCCB using 4 colors in a 5 x 10 grid. Additionally, the code works in monochrome. The print size can be varied to allow reasonable reading by a mobile cameraphone; for example, a Tag on a real estate sign might be printed large enough to be read from a car driving by, whereas a Tag in a magazine could be smaller because the reader would likely be nearer.

A Microsoft Tag is essentially a machine readable web link, analogous to a URL shortening link: when read, the Tag application sends the HCCB data to a Microsoft server, which then returns the publisher's intended URL. The Tag reader then directs the user's mobile browser to the appropriate website, not unlike how CueCat operated. Because of this redirection, Microsoft is also able to provide Tag analytics to publishers.

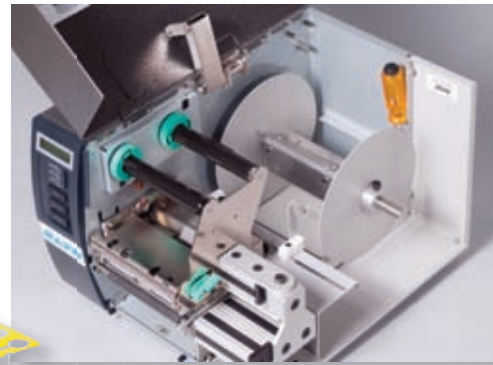

Goes to: <http://www.satolabeling.com/hort>

TXPSX Thermal Printer

The TXPSX models contain the features that make them the best-seller in the horticultural market. The rugged powder-coated industrial strength steel case is designed for harsh environments, yet still attractive for office or store settings. These printers easily handle material thickness up to 24 mil at speeds up to 10" per second. They are available with 4" (203 dpi) or 5" (300 dpi) print heads with 10" tag width allowance. The TXPSX models come standard with USB, Parallel Port, Serial Port, Ribbon Save Mode and a FETHER head (floating edge type head revolution). Ethernet connectivity is available as an option.

TECSX Thermal Printer

The TECSX models contain the same features as the TXPSX models however they handle up to 5" tag width. This unit is ideal for tags, labels and signs up to 5" wide. Utilizing the End-To-End Slip-On® tags, various pot tags, signs, and pressure sensitive labels makes this the most versatile printer for the money on the market. The TECSX models come standard with USB, Parallel Port, Serial Port, Ribbon Save Mode and a FETHER head (floating edge type head revolution). Ethernet connectivity is also available as an option.

CG408 Thermal Printer

The CG408 desktop printer is a great complement to our SX model line of printers. The CG408 can print up to 4" wide at (203 dpi), up to 4 ips. This printer is designed primarily for thinner gauge materials, such as pressure sensitive adhesive labels, our TT End-to-End Slip-On® tags, and also our ZX pot stakes. The CG408 offers a lower cost addition to help reduce changeover time for customers using different types of media. In order to utilize the full features of this printer, upgrading to TAGGIT PRO™ V8.6 is necessary.

Item No.	Qty Pack	Weight/Case	List Price	U/M

Want a free 30 day trial of this software?
Go to the site below, and click on current software file.

<http://www.satolabeling.com/TaggitProDemo>

Choosing the right software package is essential to meeting the requirements of your on-demand label printing program. We'll help you analyze your needs, assist with installation, make modifications to your database, and ensure the settings are correct for your label printing process. Ask us about software and updates. CD available upon request.

TAGGIT PRO™ Labeling Design Software and Database

Whether you need to print bar codes, text, graphic images, color pictures or from a database, TAGGIT PRO™ has the features to help you design and print tags and labels with ease. • Microsoft ready • Batch printing • Full-featured database construction capabilities • Utilize TrueType fonts, bar codes, preset formats for all our labels and graphics capabilities • Free phone support • Includes plant database designed by our company with over 4500 records. This includes Annuals, Perennials, Trees and Broadleaf Shrubs, and is totally editable to add additional varieties or information.

LABELVIEW™ Gold

This is another wonderful product from the designers of TAGGIT PRO™. This software package is for the ultimate in label design and integration. LABELVIEW™ Gold has the same features as TAGGIT PRO™ plus: • OLE Automation • Command Files • Comm Watch • Data Watch • Visual Builder • Label Select.

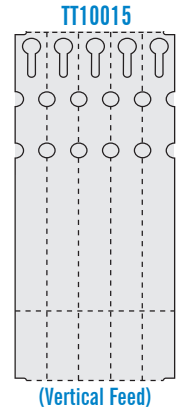

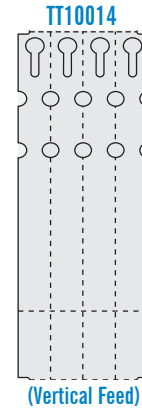

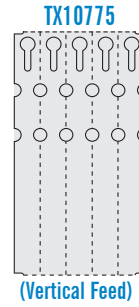

LABELVIEW™ Network Version

If it is necessary to print multiple stations or locations you will need to install LABELVIEW™ Network Version. Please call us today to discuss your needs and we can quote the appropriate software solution. **For Hardware and Software questions, please contact your Authorized Reseller.**

Item No.	Qty Pack	Description	List Price
TAGGIT PRO	1	TAGGIT PRO™ Labeling Software	\$359.00
LABELVIEW Gold	1	TAGGIT PRO™ with added label design and intergration features	\$995.00
CD charge	1	CD charge	\$25.00

Thermal Slip-On® End to End Tags Low Density Polyethylene (TX, TT) 10 mil

Our Thermal Slip-On® tags are a great way of identifying your product. Once locked, it will stay on the plant material until removed. Thermal print adheres to the surface for years, and will not fade away. The dry printing process means tags are ready to use as they come off the printer. Our Thermal Slip-On® tags can be preprinted flexographically during the manufacturing process or with the thermal transfer printing method.

Thermal Pressure Sensitive Signs Floratherm (FT) 3.2 mil

The floratherm material is designed with an aggressive adhesive and top coated face stock that resists water and sunlight while providing a superior thermal transfer print surface. The signs can be applied to smooth damp containers, flats, and trays with excellent results. Signs may be preprinted with decorative borders and your company name or logo. Signs can also be flood-coated to create additional color options.

Thermal Pressure Sensitive Labels Floratherm (FT) 3.2 mil

The floratherm material is designed with an aggressive adhesive and top coated face stock that resists water and sunlight while providing a superior thermal transfer print surface. The labels can be applied to smooth damp containers, flats and trays with excellent results. Our thermal pressure sensitive labels can be preprinted flexographically during the manufacturing process or with the thermal transfer printing method.

Clear and Block-out Labels

All of the below label sizes are also available in a Clear Synthetic (Plastic) or with Block-out Adhesive. Clear labels are commonly used to place variable data on custom printed picture tags in an attractive manner. Block-out adhesive labels are designed to cover up whatever is behind the label. If you need to re-price or change a bar code, the Block-out Adhesive label will not allow the original information to show through. If you are interested in either application, please contact your Authorized Master Reseller for a quote.

Thermal Transfer Pressure Sensitive Paper Labels

SATO's Thermal Transfer Pressure Sensitive Paper Labels have many uses. The face sheet is thermal receptive and can also be flood coated in various colors to be used in case labeling and for product identification in warehouses. The high quality face sheet is coupled with an aggressive, permanent adhesive to insure long term adhesion of the label. If direct thermal printing is the preferred print method, SATO also offers direct thermal pressure sensitive paper labels for various applications. Let SATO fill all your pressure sensitive paper label needs.

Custom Preprinted Tags

Tags designed using a company logo or a specific marketing need. Preprints can be one or two-sided.

Flexo Printed

Tags are produced via Flexographic Printing with up to 3 colors.

Imprintable

Once printed, these tags can be imprinted on a thermal printer.

Think SATO for all of your label needs.

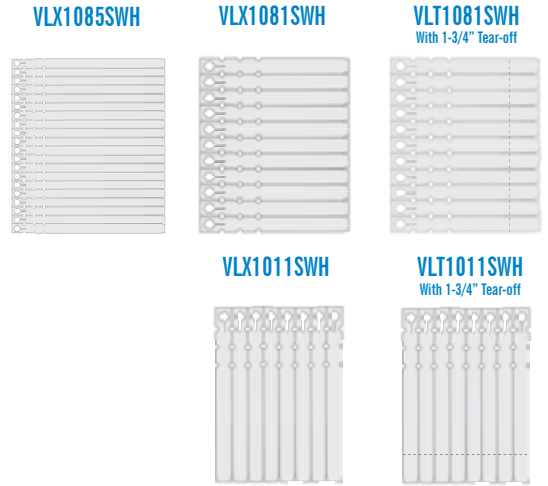

Pressure-sensitive labels, tickets, and tags

- Full range of paper, film, and adhesive options
- Up to 7 colors including 4-color process
- Computerized ink system
- Spot and full coverage water and UV varnish
- Full and pattern adhesive coating
- Inline lamination and Integrated Forms
- Tamper-evident labels
- Complete prepress capabilities
- Packaged in rolls, fan-fold, sheets, or stacks

Valueline Laser Slip-On® Tags Laser Material (VL) 10 mil

The Valueline Laser printable product is a 10 mil material that is top coated on both sides to provide superior imaging and longevity outdoors. Our Valueline is viable for all of your monochrome laser printing applications, but is also a solution to most of your color printing applications as well. This economically priced laser printable material can cover almost all of your laser printing needs. Our laser Slip-On® tags may be preprinted with information such as company name, website and logo for maximizing company visibility.

T-Stakes and Injection Molded Stakes

T-Stakes are produced from 30 mil white polystyrene for easy insertion into most soil. They may be purchased blank or preprinted in one or two colors. Our fade resistant pens found on page 26 can be used also to write on these stakes.

Injection Molded Stakes are made of heavy-duty plastic from 55 mil to 70 mil thicknesses. These stakes are sturdy enough to be inserted into most mediums. Surfaces accept writing with fade resistant marking pens. (See pg. 26)

Pressure Sensitive Labels are available for most injection molded stakes. Please see pages 14 and 15 for appropriate labels.

ElastiTag™ **SOLD** Tags

SATO Labeling Solutions and Bedford Industries have partnered to produce a revolutionary hang tag. Utilizing the patent pending ElastiTag™ attaching device, this Sold Tag is the first of its kind. The highly weatherable rubber attaching device is extremely easy to use and can wrap around a wide range of products. Since the ElastiTag™ attaching device is extremely stretchable, you can feed the tag through the slit for small caliper items for a tight fit. Or you can simply use the opening to slide the tag on to large caliper items. Available in Red or White.

Ringer and Rings

The ringer has revolutionized the auto-ringer market with its "pneumatic-like" action and ease of use. From balling and burlapping, to tagging of pots, this tool puts affordability with quality. The "D" shaped ring creates a triangle "△" when attached.

RINGER "△"

G7 Auto Ringer and Rings

The application of the self-feeding principle to the familiar hog ring plier meets a need that all users of this fastening method have been waiting for. The auto ringer cuts operating time and costs, and increases savings and profits. A very useful tool on every job within the range of this staple size. The SR8GPL rings for the G7PL are galvanized. The "C" shaped ring creates a circle "○" when attached.

Custom printed tree wraps, 10" x 12" and 10" x 18". Printed up to three colors featuring your company logo, care information, and planting instructions. Just wrap and staple, no messy glue strips to contend with.

Having options is very important to us. SATO remains dedicated in our efforts to use materials that are cost effective and earth friendly.

Throughout our catalog we've identified material with a recycle code, to provide options for material that's recyclable. Along with material that can be recycled, SATO offers many alternatives such as bio-friendly printing material, and paper options.

Let's keep recycling.

Recycling No.	Abbreviation	Polymer Name	Uses once recycled
 PETE	PETE or PET	Polyethylene terephthalate	Polyester fibers, thermoformed sheet, strapping, soft drink bottles. (See also: Recycling of PET Bottles)
 HDPE	HDPE	High density polyethylene	Bottles, grocery bags, recycling bins, agricultural pipe, base cups, car stops, playground equipment, and plastic lumber.
 V	PVC or V	Polyvinyl chloride	Pipe, fencing, and non-food bottles.
