UL-247

Stick with the Best

Out of the box and ready to go.

United Label proudly introduces the UL-247 desktop nursery tag and label printer packaged to run with or without a PC. We can design formats, tailored to your specifications, then send to the printer for future recall with the attached keyboard for \$865.

OR, using BarTender or NiceLabel, run the UL-247 directly from a PC. Capabilities include database connectivity, graphics, barcodes, QR codes and Mac compatibility.

Uses many of the same roll stock as our larger table top printers.

The UL-247 handles full size rolls of stock (3" core with 8" OD rolls) and a 984' ribbon. Print width is 4.25" wide with a 203 dpi resolution at speeds up to 7" per second. These standard features make the UL-247, pound for pound, the fastest, most versatile, user friendly desktop system for low volume requirements on the market today.

Package includes:

- UL-247 thermal transfer printer
- External media holder
- USB cable (PC-Driven system)
- Labeling Software (PC-Driven system)
- Pre-formatted labels (Stand-Alone system)
- Keyboard (Stand-Alone system)

Other Specs:

- Media width: .75" to 4.5"
- Media length: .4" to 39.3"
- Environmental: 20 - 95% non-condensing relative humidity
