

# Liberty™ GX

THE POWER OF  
digitalRF™

Checkpoint®

**Discreet design**  
**Transparent housing**  
**Scratch-resistant acrylic**  
**Maximum alarm integrity**  
**Exceptional tag discrimination**  
**High-performance electronics**

*When appearance is as important as performance, the Liberty GX is the clear choice.*

**Designed for apparel and specialty retailers, the Liberty GX system is built to blend discreetly into the store's decor. Liberty GX provides superior detection based on Checkpoint's patented Digital Signal Processing technology, while delivering all the advantages of robust two-way communications.**

Constructed of clear, scratch-resistant acrylic, the Liberty GX is engineered to provide virtually transparent protection and to maintain its good looks. Its special finish stands up to the wear and tear of retail traffic and is easily maintained using any ammonia-free cleaner.

**Next-generation digital RF technology ensures outstanding EAS performance:**

- Wide-aisle detection capability is ideal for department and specialty stores.
- Compatibility with Checkpoint's complete line of 8.2 MHz RF tags and labels, including the Postage Stamp label, allows flexibility.
- Advanced filtering algorithms maximize alarm integrity.
- Two-way communications allow remote review and repair/update via modem or network connections.
- Tagged merchandise can be displayed within 18 inches of sensors.
- System automatically time-/date-stamps all alarms for review.

**Liberty GX is engineered for the realities of the retail world:**

- Independent antenna alarms allow easy alarm identification.
- System indicator light eliminates need for manual test checks.
- Pedestals can be disabled/enabled individually.
- High-durability base protects electronics from dust, cleaning fluids, etc.
- Custom configurations available for any store.

## Specifications

### Antenna Dimensions:

**Height:** 64.5" (1638 mm)

**Width:** 20" (508 mm)

**Depth:** 1.25" (32 mm)

### Antenna Base Dimensions:

**Height:** 8" (203 mm)

**Width:** 22" (559 mm)

**Depth:** 6" (152 mm)

### Antenna Construction:

**Frame:** Scratch-resistant clear acrylic\*

**Base:** Light gray high-impact plastic,  
molded-through color cover

**Weight:** 55 lbs. (25 kg)

\* Liberty GX should only be cleaned with an ammonia-free cleaner.
